

Full Stack Web Development Lab

Week 1 – Record

Aim

To design and develop a personal resume (portfolio) webpage using HTML, displaying personal details, contact information, educational qualification, technical skills, work experience, projects, certifications, strengths, languages known, and a declaration, using appropriate HTML tags and elements such as headings, tables, and ordered lists.

Description

HTML (HyperText Markup Language) is the standard markup language used to create the structure and content of web pages. In this program, a resume webpage is built using basic HTML tags like `<h1>` to `<h3>` for headings, `<table>` for structured information (contact details, education, and projects), and `<ol>/<li>` for listing skills, certifications, strengths, and languages. The `<center>` tag is used to align the profile image and name, and the `<hr>` tag is used to separate different sections of the page for better readability.

Program

```
<html>
  <body>
    <div>
      <center>
        
        <h1>PASUPULERTI VENKATA RAVITEJA</h1>
        <h3>STUDENT | Full Stack Web Developer | DevOps Enthusiast</h3>
      </center>
      <hr>
      <h2>contact information</h2>
      <table border="1" cellpadding="9">
        <tbody>
          <tr>
            <th>Information</th>
            <th>Details</th>
          </tr>

          <tr>
            <td>Email</td>
            <td>iamraviteja.p@gmail.com</td>
          </tr>

          <tr>
            <td>Phone</td>
            <td>+91-8886898943</td>
          </tr>

          <tr>
            <td>LinkedIn</td>
            <td>https://www.linkedin.com</td>
          </tr>

          <tr>

Details about the Program

Where Saved	The HTML file is saved with a .html extension (e.g., index.html or resume.html) inside the project folder, e.g. FL_LAB_ANITS/fs_week_1/ , and hosted on GitHub in the repository FL_LAB_ANITS .
Where Executed	The file is executed inside a web browser (such as Google Chrome, Microsoft Edge, or Firefox). Since the file is also pushed to GitHub, it is hosted and executed live using GitHub Pages at the link: https://raviteja-codehub.github.io/FL_LAB_ANITS/fs_week_1/
How Executed	1. Locally: Double-click the .html file, or right-click and choose "Open with" a web browser; the browser reads and renders the HTML tags as a formatted webpage. 2. Online: The file is committed and pushed to a GitHub repository, and GitHub Pages is enabled to serve the file directly as a live webpage accessible from any browser via the GitHub Pages URL.

Output

On opening the HTML file in a browser, the following resume webpage is displayed as output:

PASUPULERTI VENKATA RAVITEJA

STUDENT | Full Stack Web Developer | DevOps Enthusiast

contact information

Information	Details
Email	iamraviteja.p@gmail.com
Phone	+91-8886898943
LinkedIn	https://www.linkedin.com
GitHub	https://github.com
Location	Andhra Pradesh, India

Career objective

Seeking an opportunity as a Web Stack Developer to leverage my technical skills and programming knowledge while gaining valuable industry experience and contributing to innovative projects.

Educational qualification

Degree	University	Year	Percentage / CGPA
B.Tech(AI&ML)	Anits	2028	9.10 CGPA
Intermediate	Board of Intermediate Education Andhra Pradesh	2024	97%
SSC (10th)	central Board of Secondary Education	2022	88%

Technical skills

1. HTML
2. CSS
3. java script
4. python

Work experience

1. fresher

Projects

Project	Technology	Description
Online Food Ordering System	HTML, CSS, JavaScript, React, Node.js, MongoDB	Developed a full-stack web application for browsing menus, placing orders, and managing user accounts.
Personal Portfolio Website	HTML, CSS, JavaScript	Designed and developed a responsive portfolio website to showcase skills, projects, and contact information.
E-Commerce Website	React, Node.js, Express.js, MongoDB	Built a full-stack e-commerce application with user authentication, product management, shopping cart, and order processing.

Certifications

1. Google UX Design
2. Oracle Database SQL
3. Full Stack Web Development
4. Python Programming

Strengths

1. Quick learner
2. Problem solving
3. Leadership skills

Languages known

1. English
2. Telugu
